PROFILE

I am an enthusiastic Web3 developer deeply passionate about emerging technologies. With a solid background in web development, I've wholeheartedly delved into the world of decentralized systems and blockchain, driven by an unyielding curiosity for innovation. Eager to remain on technology's cutting edge, I actively seek fresh challenges in this swiftly evolving domain. Committed to harnessing the potential of Web3, I strive to craft impactful solutions that contribute to shaping the future of tech.

EXPERTISE

- React
- Solidity
- Typescript
- Ethers.js
- Hardware

EXPERIENCES

Cronpay | Jan 2022- Present
CTO
- Lead CTO at CronPay, spearheading web3 solutions. Bridged technology and business, driving transformative growth.

Web3 Freelancer | Jul 2021- Present
Full-stack
- Navigated the complexities of the web3 landscape during freelancing, harnessing blockchain, smart contracts, and decentralized applications to create innovative solutions.

Capgemini | Jul 2020- Jul 2021
Salesforce Developer
- Crafting tailored solutions with expertise in Apex, Lightning, and CRM customization. Adept in creating efficient solutions. Transformed client visions into successful implementations.

EDUCATION

Master Industrial Engineering | 2017 - 2020
Instituto Politécnico de Bragança - Portugal
- Achieved advanced problem-solving skills and optimizing complex processes.

Electronic Engineering, | 2013 - 2017
Universidade tecnológica federal do Parana - Brazil
- Bachelor's in Electronic Engineering, equipped me with a strong foundation for designing cutting-edge technologies.

Soft Skills

- Leadership
- Problem-solving
- Resilient
- Autodidact
- Adaptability
- Focused
- Communicative
- Optimism
- Persistence

Hard Skills

- Solidity
- React
- Typescript
- Hardhat
- Truffle
- Ethers.js
- React Native
- Hyperledger Fabric
- Prompt Engineering
- Python
- Tensorflow
- GO
- C#
- Unity
- Rust
- HTMX
- Photoshop
- C

Achievements

Jan - Mar 2016
Ukraine
AIESEC Internship

During my internship in Ukraine, I embraced cultural differences and experienced personal growth through a rewarding presentation about Brazil to Ukrainian children. Adapting to a new environment sharpened my adaptability, while the presentation honed my communication skills and highlighted the universal power of education in fostering global connections. This experience enhanced both my professional and cultural perspectives.

2015 - 2016
Universidade Tecnológica Federal do Parana - Brazil
Vice President of the Student Union

My tenure as Vice President of the Student Union of Electronic Engineering was a transformative journey that honed my soft skills in ways beyond the classroom. The experience taught me the art of effective communication, collaboration, and leadership. Navigating diverse opinions, organizing events, and fostering teamwork enhanced my adaptability and problem-solving abilities. This role not only deepened my technical knowledge but also empowered me with the essential interpersonal skills vital for success in any professional arena.

Certificates

Salesforce Developer
Salesforce

Paltform Developer I - Certification

Basic German
UTFPR - Brazil

Extra-curricular course from the Universidade Tecnológica Federal do Parana

Hyperledger Fabric 2.x
Udemy

Hyperledger Fabric setup

Solidity Developer
Udemy

Full-stack app development using Solidity and React

Raspberry Pi Fullstack
Udemy

Full-stack app development using Flask in a Raspberry pi
